ANALYSIS REPORT

ORELAP Accredited Lab#: OR-100013

Reported: 11/01/2016 Received: 09/23/2016 Sampled By: Michelle Guthrie

Work Order: 6267005

Project: NWRESD Project #: N/A

Sample Type:

Sampling Location: Day Treatment Program

C **NWRESD**

† <i>Lead</i>	1030 EPA 200.9	ND	ppb	2.0	20 ppb	10/28/16 16:06

ND = None detected at the MRL

MRL = Minimum Reporting Limit

MCL = Maximum Contamination Limit

†All procedures for this analysis are in accordance with NELAP standards. * The EPA MCL for Lead in Public Drinking Water Systems is 15 ppb. For school, daycare, or non-residential building testing the EPA recommends outlets be taken out of service if the lead level exceeds 20 ppb; this is a maximum contamination level for lead in samples based on a 250 mL first-draw sample, exceedences require remediation or further sampling. This is not an acceptance level for health based exposure.
