

# Northwest Regional Education Service District

Code: **DFD-AR**  
Revised/Reviewed: 4/18/06; 2/21/17  
Orig. Code(s): DFDA-AR

## **Services for Public and Private Entities**

The Northwest Regional Education Service District (NWRES D) may provide services to public and private entities other than component school districts. Services and facilities may be provided to other school districts, government agencies and private entities under the following conditions:

1. A written agreement approved by the NWRES D superintendent or designee and the receiving entity will delineate the conditions under which the services or facilities may be delivered;
2. The cost of the NWRES D providing such services and facilities shall be fully reimbursed by the receiving entity. Cost determination shall include actual cost of delivery and an appropriate amount for NWRES D fixed costs;
3. Services and facilities provided to entities other than component school districts shall be limited to those being provided to component districts except that a government agency, health care agency, social service organization or employment training agency may contract with the NWRES D to provide services in addition to those normally provided by the NWRES D;
4. The NWRES D must submit proposals for entrepreneurial services and facilities to component school districts for approval to ensure that component school districts receive information about the costs and benefits of providing these services. This information must include a description of funding sources the NWRES D will use to provide entrepreneurial services.
